Re: Chemical Recovery Systems Site – Elyria, Ohio

Dear Ms. Johnson:

On March 13, we received EPA's letter dated March 2, 2001 addressed to "Stanadyne, Inc. Moen Division", constituting a Notice of Potential Liability and Request for Information regarding the Chemical Recovery Systems Site in Elyria, Ohio. Moen Incorporated is the successor to Stanadyne, Inc.

This letter confirms Moen's intention to participate in appropriate investigatory and remedial actions at the Site, based on Moen's contribution, if any, of materials to the Site. Moen provides this undertaking with reservation of all rights to contest potential liability, volumetric contribution and other issues regarding involvement in the Site.

In addition, this letter constitutes a request for an extension of time to respond to EPA's notice. Moen requests an additional thirty (30) days, through May 15, 2001, to respond to the 104(e) request incorporated in EPA's letter.

Please confirm your receipt of this letter and the request for extension.

Very truly yours,

Dennis McKinney, CSP, REM
Director, Environmental, Health & Safety

cc: K. R. Rose
